Coimbatore - 641007

Microserv.in

| S/N | Product Name | Intended Use | Code | Price |
|---|--|---|------|-------|
| Ready-to-Use Agar Plate (90 mm plates) | | | | |
| 1 | Blood Agar (BA) | Cultivation and identification of fastidious organisms based on hemolytic reactions | 101 | ₹ 43 |
| 2 | Chocolate Agar (CA) | Isolation and cultivation of Haemophilus spp. and Neisseria spp. | 102 | ₹ 45 |
| 3 | Macconkey Agar (MA) | Selective isolation and differentiation of Gram-negative and enteric bacteria based on lactose fermentation | 103 | ₹ 40 |
| 4 | Mueller Hinton Agar (MHA) | For antibiotic susceptibility testing of Clinical isolates | 104 | ₹ 40 |
| 5 | Mannitol Salt Agar (MSA) | For selective isolation of pathogenic Staphylococci | 106 | ₹ 40 |
| 6 | Chrome UTI Agar (HCA) | Identification of UTI causing bacteria | 107 | ₹ 43 |
| 7 | Mueller Hinton Blood Agar (MHBA) | Antibiotic susceptibility testing of Streptococcus pneumoniae and other Streptococci spp. with selected agents: Penicillin, Erythromycin, Ofloxacin, Tetracycline, Vancomycin and Chloramphenicol. | 112 | ₹ 45 |
| 8 | Sabouraud's Dextrose Agar (SDA) | Selective cultivation of Yeasts and Molds from clinical and non-clinical samples | 113 | ₹ 40 |
| 9 | Nutrient Agar (NA) | General Purpose Cultivation media | 116 | ₹ 40 |
| 10 | Salmonella Shigella Agar (SSA) | Isolation of Salmonella and Shigella spp. from clinical samples | 119 | ₹ 40 |
| 11 | Thiosulphate Citrate Bile Salt Sucrose Agar (TCBS) | Selective isolation and cultivation of Vibrio spp. causing cholera and Vibrio spp. causing food poisoning | 120 | ₹ 40 |
| 12 | Malt Extract Agar (MEA) | Cultivation and isolation of Yeasts and Molds from clinical and non-clinical samples | 121 | ₹ 40 |
| 13 | Soybean Casein Digest Agar (SCDA) | General Purpose Cultivation media | 123 | ₹ 40 |
| Tube Medium (Single Use Plastic Tubes) | | | | |
| 14 | URO Tube | Tube with Preservation Medium for Urine (Culture and Sensitivity) Transport | 401 | ₹ 25 |
| 15 | Peptone Water | Growth medium for adjusting inoculum size / Bacterial Identification based on Indole production (Kovac's Reagent) | 304 | ₹ 25 |
| 16 | GNB 9 Kit | Bacterial Identification based on biochemical reactions (Mannitol Motility, Triple Sugar Iron Agar, Citrate Agar, Lysine Iron Agar, Urea Agar) | 501 | ₹ 200 |
| 17 | Sabouraud Dextrose Agar – Slant (SDA-S) | For selective cultivation and maintenance of Yeasts, and Molds | 404 | ₹ 40 |
| 18 | Malt Extract Agar – Slant (MEA-S) | For selective cultivation and maintenance of Yeasts, and Molds | 407 | ₹ 40 |

- Quality Check at NABL accredited Clinical Laboratory
- Certificate of Analysis for each Batch
- 12+ Years in Service
- 50+ Satisfied Customers Pan India
